IMPORTANT NOTE: You will be assigned to practical work sessions only after you have paid the registration fee and have passed the laboratory safety test. Your chosen practical work preferences will be taken into account, until the places for practical work sessions are filled. Sessions with a limited number of participants will be filled on a first-come-first-served basis. You can select up to three practical work sessions from wet lab and modelling and both from computer simulation and e-learning. Please be sure to mark all practical work sessions by priority, as both wet and modelling sessions have limited number of participants, therefore it's possible that your second or third choice will be considered instead of your first one.

Please use block letters!
